

Avi-Con

Water Soluble Vitamins For Birds

Indications: Dietary and supportive supplement designed to provide the vitamins necessary for normal health and feathering.

- Scientifically formulated for birds
- Supplies 13 essential vitamins
- Provides a measure of safety for birds with special requirements
- Easy continuous administration
- Use in water or food

Dosage and Administration: Prepare a water vitamin mixture every day. For dietary supplementation, mix two measures per fl oz of drinking water each day. For young, ailing or aged birds, double the above dose.

Each measure contains 100 mg Avi-Con.

Ingredients: Malto dextrin, choline chloride, vitamin B12 supplement, DL-alpha tocopheryl acetate, niacin, menadione sodium bisulfite complex, folic acid, vitamin A acetate, pantothenic acid, riboflavin, thiamine mononitrate, pyridoxine HCl, vitamin D3 (cholecalciferol), biotin and BHT, a preservative.

Store at room temperature. Protect from light. Avoid excessive heat (104° F).

How Supplied:

- 50 gram bottle.....List 0111
- 250 gram bottle.....List 0112

Guaranteed Analysis:	Per 50 grams	Per 200 mg
