Lipo-Form

Indications:

For use as a supplementary dietary source of the lipotropic factors: choline and methionine in the canine.

Dosage and Administration:

Feed free choice, from the hand or crumble and mix into the food. The usual daily dose is 1 to 2 tablets per 10 kilograms (22 pounds) of body weight.

Caution:

Avoid prolonged excessive dosage administration. In rare cases animals may experience gastrointestinal irritation. In the event of stomach upset, administer tablets during or after feeding.

Guaranteed Analysis Per Tablet:

(All Values are minimum quantities unless otherwise stated.)
