

# Osteo-Form SA

Calcium-Phosphorus with Vitamins  
Powder

**Indications:** A natural source of readily assimilable calcium and phosphorus. For use as an aid in the prevention of dietary deficiencies of calcium, phosphorus and vitamins A and D in dogs, cats, birds and reptiles.

**Advantages:**

- Calcium:phosphorus ratio of 1.8 to 1, designed to prevent deficiencies of both elements without danger of nutritional imbalances of calcium or phosphorus
- Good for young animals during periods of rapid growth
- Contains very palatable and highly assimilable bone ash and bone meal
- Ideal for pregnant or lactating bitches

**How Supplied:**

350 gram bottles.....List 0368

**Guaranteed Analysis Per 350 grams:**

Calcium, not more than.....	32.0%
Calcium, not less than.....	27.0%
Phosphorus, not less than.....	16.5%
Vitamin A.....	115,000 IU
Vitamin D <sub>3</sub> .....	11,500 IU

**Ingredients:** Dicalcium phosphate, bone ash, calcium carbonate, soybean flour, bone meal steamed, polysorbate 80, citric acid, ascorbic acid, vitamin A acetate and cholecalciferol.

**Dosage and Administration:** Dogs and Cats - To aid in the prevention of dietary deficiencies give 1 to 2 slightly rounded teaspoonfuls for each 20 pounds body weight per day as long as indicated.

Many reptile and avian diets are low in calcium and high in phosphorus. Evaluation of the entire diet is necessary before recommending the exact dose of Osteo-Form SA.

**Administration:** Osteo-Form SA may be added to the daily ration or mixed with milk or water. To facilitate proper adhesion of Osteo-Form SA to dry food, slightly moisten the food with water.

Each slightly rounded teaspoonful of Osteo-Form SA contains approximately 4 grams. A teaspoon measure is enclosed.

When using Osteo-Form SA as a maintenance dietary supplement, calcium and phosphorus from other food sources should be considered.

**DESIGNED FOR THE PROFESSION**
