

Bloat-Pac

Emulsifiable Oil

Indications: As an aid in the treatment of acute forage or "frothy" bloat of cattle, lambs and kids.

Administration: Administer orally or by direct injection into the rumen with a large gauge needle between the hip bone and rib cage in the left flank area.

Note: May be given orally as a drench.

Directions: The usual recommended amounts are as follows:

Mature Cattle.....	150-300 mL
Yearlings.....	125-250 mL
Calves.....	100-200 mL
Lambs and Kids.....	50-100 mL

Note: Bloat-Pac may become cloudy by exposure to low temperatures. It will clear by gentle warming and remain clear at room temperatures.

Ingredients: Vegetable oil with emulsifiers and preservatives

KEEP OUT OF REACH OF CHILDREN

How Supplied:

500 mL bottle.....List 1001
