Feeding Directions:

Prepare a water vitamin mixture every day. For nutritional supplementation, mix two measures per 35 mL of drinking water each day. For young, ailing or aged birds, double the above amount.

Each measure contains 120 mg Avi-Con.

Ingredients:

Maltodextrin, choline chloride, vitamin B₁₂ supplement, alpha tocopheryl acetate, niacin, menadione sodium bisulfite complex, folic acid, vitamin A acetate, calcium pantothenate, riboflavin, thiamine mononitrate, pyridoxine HCl, cholecalciferol (source of vitamin D₃), biotin, and BHT, a preservative.

Store at room temperature.

Protect from light.

Avoid excessive heat (104° F).

How Supplied:

50 gram bottle. List 0111
